<b>Patient Partners Program (PPP) - BE0475959402</b>
Support: € 20000 (year 2017) Patient Partners Program is a training program about rheumatoid arthritis (RA) & ankylosing spondylitis (AS) dedicated to GPs, students in medicine, paramedics & other relevant parties involved in the disease management of RA and AS patients. The courses are given by RA or AS patients intensively trained by experts in rheumatology. The course is divided into 6 sections: joints' anatomy, correct clinical examination of different joints, ad hoc medical wording, communication tools physician-patient, range of movements & functionality.  The main objectives of the Patient Partners Program are twofold: to educate physicians about the diagnosis, socio-economical and psycho-social effects of patients with rheumatoid arthritis and ankylosing spondylitis and to optimize the communication between general practitioners/caregivers and patients
