## European Patients' Forum (EPF)

### Organisation Description

The European Patients' Forum (EPF) is the umbrella patients' organisation at EU level. It brings together a broad range of leading European and national patients' organisations in different disease areas. Representing over 150 million patients, the EPF is a key interlocutor with European institutions, and promotes patients' rights, participation and involvement in EU healthcare developments.

### Funding

€20,000	Pfizer Service Company provided core funding to EPF.
€25,000	Pfizer Inc provided support to EFF's Capacity Building Programme.

## **Appendix: Funding to organisations based in Belgium engaged in some work with patients.**

Pfizer provides funding to a number of organisations that are not patient organisations, but which have patient organisation membership or are otherwise relevant to patients. As such, they are listed here for the sake of transparency.

**European Brain Council (EBC):** The European Brain Council (EBC) is a coordinating council formed by European organisations in neurology, neurosurgery, psychiatry, basic brain research (neuroscience), as well as patient organisations and companies from within the pharma and biotech industries. It represents a vast network of patients, doctors and scientists, and these stakeholders along with its industrial partners make it eminently suited to work in close partnership with the European Parliament and Commission, national governments as well as other policy making bodies. In 2015 Pfizer Inc provided EBC with €20,000 as an annual membership fee.

**Pain Alliance Europe (PAE):** PAE is a multi-stakeholder alliance that aims to improve the quality of life of people living with chronic pain in Europe, by promoting awareness of chronic pain and promoting a European policy on chronic pain, in order to reduce the impact of chronic pain on all areas of European society. In 2015 Pfizer Inc provided PAE with €20,000 to support annual membership.
